Michael Lamb and Lori Backes, FNSB; Rick Ross, Kenai; Dennis Roper, Todd
Sherwood, and Jason Bergerson, NSB; Willard Dunham, Seward; Dave Dengel, Valdez
Telephone: Mike Catsi, Skagway; Pete Hallgren, Delta
Dept. of Revenue: Randy Hoffbeck, Steve Porter,
Information Insights: Brian Rogers, Sherry Modrow, Gradon Haenel
Nortech: Nadine Hargesheimer

Announcement of TransCanada ROW Process hearings with Tony Palmer: Delta – Sept
28; Tok – Sept 29; Fairbanks – Oct 1

Discussion and proposed changes to Resolutions 5, 6 & 7
Nadine will redraft 5 & 6; Lori will work on 7

PowerPoint presentation of changes to the Impact Study

Some of the comments:

- TransCanada ROW brochure says 6 compressor stations

- NRC Report – need cleaner graphic

- Workers covered by insurance – is that true for subcontractors? Very important
that workers have insurance coverage because of how the payer mix
affects hospitals.

- Coal development in Montana: what was their experience with in-migration of
families?

- More people now come to Seward for training with their families, rather than
single people – creates impact on schools.

- Look at impact on Delta and Fairbanks of Pogo coming into production

Other gas pipeline applicants:

- Analysis of TransCanada application substantially similar

- Possible presentation by TransCanada late October/early November

- Possible presentation by Enbridge mid-October

Next Meeting

October 15, via teleconference 10 A.M. to Noon

Call-in: 907 474-4636
